SUMMARY

Motivated Computer Science Student and Software Engineer Intern with practical experience in MERN stack development and AI-assisted coding using Cursor AI. Enjoys building user-friendly web applications, learning new tools, and growing through real project experience.

EDUCATION

Bachelor of Computer Science (BCS) 2023- 2026(ongoing)
Punyashlok Ahilyadevi Holkar Solapur University, Solapur

TECHNICAL SKILLS

HTML| CSS| JavaScript| MERN stack| Cursor AI

WORK EXPERIENCE

Software Engineer Intern | YugaYatra Retail (OPC) Private Limited Dec 2025- Feb 2026(ongoing)

- Worked on building and improving websites and applications using **Cursor AI** and **Firebase**
- Assisted the team in developing and testing features for **live, real-world projects**
- Helped design and refine user interfaces and visual elements using **Canva**
- Collaborated with team members through **Google Workspace** to complete tasks and meet deadlines
- Gained practical exposure to industry workflows, teamwork, and project-based development

CERTIFICATION

- **The Complete Full-Stack Web Development Bootcamp** – Udemy Sept 2025
  Instructor: Dr. Angela Yu | Duration: 61.5 hours
  - Gained hands-on experience in HTML, CSS, JavaScript (ES6), Node.js, Express.js, MongoDB, React, Git/GitHub, APIs, and Deployment

PROJECTS

ChefCabin

Technologies: React, Node.js, Express.js, MongoDB, JWT, Multer, Axios, CSS

- Developed a recipe platform that allows users to upload and manage dishes, mark favourites, view cooking details, and explore recipes created by others. Focused on a simple, user-friendly experience with smooth navigation, secure authentication, and real-time updates.

Resume Builder Website

Technologies: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB

- Developed a web-based resume builder platform that helps students and job seekers create professional, ATS-friendly resumes. Included structured sections such as personal details, education, skills, projects, experience, certifications, and achievements.
